REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: While the prior art of Jewett (2,986,454) does disclose a tubular reactor substantially as claimed, Jewett fails to disclose wherein the separator plate (3) would allow for leakages. In the examiner's opinion, it would not have been obvious to a person of ordinary skill in the art to allow for leakage by the separator plate (3) of Jewett since Jewett teaches a gas tight arrangement and a welded seal with the reaction tubes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
